

Educational Objective

The objective of the Vocational Nursing Program is to provide the student with skills that will afford him or her the opportunity to seek employment in hospitals, clinics, private physicians' offices, and extended long-term care facilities under the supervision of a licensed vocational nurse, a registered nurse or a physician. Emphasis is on nursing theory, development and application of nursing skills in the basic care of individuals throughout the life span.

Administration, Staff, & Faculty

The Administration, staff, and faculty have years of education, training, and experience in the areas of nursing, medical and health care, guidance and counseling, management, as well as school administration and operations.

Program Delivery

The Vocational Nursing Program is delivered by Blended Instruction. Theory instruction and materials will be delivered through a combination of in-person classroom sessions and distance learning classes through GoToMeeting.com and Google Classroom. Skills laboratory and clinical sessions will be delivered in-person, on campus and at affiliated facilities to practice as an LVN in California..

Awards for Completion

Upon successful completion of the Program, a Diploma will be granted. The graduate will be eligible to take the National Council Licensure Examination for Practical Nurses (NCLEX-PN®). A passing score in the NCLEX-PN® grants eligibility to apply for vocational nurse licensing with the California Board of Vocational Nursing and Psychiatric Technician (BVNPT). A license is required to practice as an LVN in California..

Credit Granting

Students who have completed academic courses in other accredited institutions or have relevant experiential learning may be given credit upon meeting specific criteria.
